## **2. Extent of Contract**

The contract comprises the construction, completion and maintenance of the works and except in so far as the contract otherwise provides, the provision of all labour, materials, constructional plant, temporary works and everything whether of a temporary or permanent nature required in and for such construction, completion and maintenance so far as the necessity for providing the same is specified in or reasonably to be inferred from the contract.

## **3. Letter of Intent/Acceptance/Award**

Before signing of the contract, the SMVDU may issue by registered post or by otherwise, depositing at the registered office of the contractor, letter of Intent/Acceptance to enter into a contract with the contractor for the execution of the works in accordance with the contract. Upon issue of such Letter of Acceptance/Intent by the SMVDU, the SMVDU shall be deemed to have signified his intention to award the contract, however, the process shall be deemed to be complete only when the contract has been entered into by the SMVDU and the Contractor. However, until a formal contract agreement is prepared and executed, the tender together with the SMVDU's letter of intent shall constitute a binding contract between the parties.

## **4. Contract Agreement**

4.1 Within 10 days after the issue of letter of acceptance, the contractor shall have to enter into a written deed of agreement incorporating all the terms and conditions as embodied in the Tender Documents or modified subsequently in writing and those contained in the letter of acceptance, with the SMVDU.

4.2 The following documents shall be deemed to form and be ready and construed as part of the Contract Agreement:

- a) The said Tender and Appendix.
- b) Form of Tender
- c) Conditions of contract.
- d) Letter of acceptance.
- e) Contract price.
- f) Priced Bill of Quantities as accepted.
- g) Specifications.
- h) Drawings.
- i) Other additional documents as required

**5. Language (s)**

The language in which the contract documents shall be drawn up shall be English.

**6. Documents Mutually Explanatory**

Except if and to the extent otherwise provided by the contract, the provisions of the conditions of contract shall prevail over those of any other document forming part of the contract. Subject to the foregoing, the several documents forming the contract are to be taken as mutually explanatory of one another but in case of ambiguities or discrepancies, the same shall be explained and adjusted by the Engineer who shall thereupon issue to the contractor instructions directing in what manner the work is to be carried out.

**7. Contractor's General Responsibilities**

7.1 The contractor shall, subject to the provisions of the contract, and with due care and diligence, execute, complete and maintain the works and provide all labour including Supervision, materials, constructional plant and all other things, whether of a temporary or permanent nature, required in and for such execution, completion and maintenance so far as the necessity for providing the same, excluding those to be provided by the SMVDU is specified in, or is reasonably to be inferred from the contractor.

7.2 The contractor shall carry out and complete and maintain the works in accordance with good engineering practices and using materials and workmanship of the quality and standards therein specified provided that where and to the extent that approval of the quality of materials or of the standards of workmanship is a matter of option, such quality and standards shall be to the satisfaction of the SMVDU/Engineer/Engineer's Representative.

**8. Contractor's Superintendence**

8.1 The Contractor shall give and/or provide all necessary superintendence during the execution of the works and as long thereafter as the Engineer may consider necessary for the proper fulfillment of the Contractor's obligations under the Contract. The Contractor or his competent and authorized technical agent or representative and all other technical staff approved of in writing by the Engineer (which approval may at any time be withdrawn) are to be constantly on the works and shall give whole time to the superintendence of the same. Such representatives shall be adequately qualified and have the required experience in similar works. If such approval shall be withdrawn by the Engineer, the contractor shall as soon as is practicable (having regard to the requirement of replacing him as hereinafter mentioned) after receiving written notice of such withdrawal remove the agent from the Site and shall not thereafter employ him again on the site in any

capacity and shall replace him by another agent approved by the Engineer. Such authorized agent or representative shall receive on behalf of the contractor, directions and instructions from the Engineer or (subject to the limitations contained in the contract) the Engineer's Representative.

8.2. Contractor's senior representative for execution and co ordination of works. The contractor shall have on site, at all times during working hours throughout the course of the contract, at least one competent senior representative who shall be empowered to make decisions bindings on the contractor in respect of all matters likely to arise in connection with the execution and coordination of the works at site and shall keep the engineer and the SMVDU informed at all times about the name and designation of such representative only. Contractor's senior representative shall have the power to take joint measurements and sign the measurement books/bills

**8.3. Removal of contractor's employees**

The engineer shall be at liberty to object to and require the contractor to remove forthwith from the works any person employed by the contractor in or about the execution or maintenance of the works who in the opinion of the engineer misconducts himself or is incompetent or negligent in the proper performance of his duties or whose employment is otherwise considered by the engineer to be undesirable and such person shall not be again employed upon the works without the written permission of the Engineer. Any person so removed from the works shall be replaced as soon as possible by a competent substitute approved by the engineer.

**8.4. Unauthorized Persons**

No unauthorized persons are to be allowed on the site. The contractor shall instruct all such persons to keep out and shall take steps to prevent trespass.

**8.5. Safety of Site Operations**

The contractor shall take full responsibility for the safety, stability and adequacy of all site operations and methods of construction including all temporary works, provided that the contractor shall not be responsible, except as may be expressly provided in the contract, for the design or specification of the permanent works.

**9. Assignment**

The contractor shall not assign the contract or any part thereof or any benefit or interest therein or there under without the prior written consent of the SMVDU.

**10. Sub-Letting**

Except where otherwise expressly provided in this contract, the contractor shall not sub-let the whole or any part of the works without the prior written consent of the Engineer and such consent, if given, shall not relieve the contractor from any liability or obligation under the contract and he shall be responsible for the acts, defaults and neglect of any sub-contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the contractor or his agents, servants or workmen. Provided always that the provision of labour on a piecework basis shall not be deemed to be sub-letting under this clause.

**11. Absence of Specification**

If the specifications do not contain particulars of materials and works which are obviously necessary for the proper completion of the works, and the intention to include, which is inferred, all such materials and works shall be supplied and executed by the contractor without extra charge. If the contractor requires additional information, he shall, so request in writing, well in advance to commencement of the particular work, to the Engineer who will issue such detailed information as necessary within a reasonable time.

**12. Work to be to the satisfaction of SMVDU/Engineer**

12.1 The contractor shall execute, complete and maintain the works in strict accordance with the contract to the satisfaction of the SMVDU and shall comply to the Engineer's instructions and directions on any matter (whether mentioned in the contract or not) touching or concerning the works. The contractor shall take instructions and directions only from the Engineer or (subject to the limitations referred to in clause 8 as mentioned in the agreement hereof) from the Engineer's Representative.

12.2 The contractor shall forthwith comply with all instructions issued to him by the Engineer/Engineer's Representative in regard to any matter in respect of which the Engineer/Engineer's Representative is expressly empowered by these conditions to issue instructions. If within seven days after receipt of a written notice from the Engineer/Engineer's Representative requiring compliance with an instruction the contractor does not comply therewith, then the SMVDU may employ and pay other persons to execute any work whatsoever which may be necessary to give effect to such instruction and all cost, incurred in connection with such action, shall be recoverable from the contractor by the SMVDU as a debt or may be deducted by him from any monies due or to become due to the contractor under this contract and carrying out such works by other persons/agencies shall not relieve the contractor from fulfilling his obligations under the contract.

**13. Remedy for Bad Work**

If it shall appear to the Engineer or his representative in charge of the work, that any work has been executed with unsound, imperfect or unskillful workmanship or with materials of any inferior description, or that any materials or articles provided by him for the execution of work are unsound or of a quality inferior to that contracted for, or otherwise not in accordance with the contract, the contractor shall on demand in writing from the Engineer specifying the work, materials or articles complained notwithstanding that the same may have been inadvertently passed, certified and paid for, forthwith rectify and remove and reconstruct the work, so specified in whole or in part as the case may require, at his own risk and cost and in the event of his failure, the Engineer may rectify or remove and re-execute part or whole of the work with new materials after dismantling the rejected works at the risk and cost in all respects of the contractor.

**14. Setting Out**

The contractor shall be responsible for the true and proper setting out of the works in relation to original points, lines and levels of reference given by the Engineer and for the correctness (subject as above mentioned) of the position, levels, dimensions and alignment of all parts of the works and for the provision of all necessary instruments, appliances and

labour in connection therewith. The checking of any setting out or of any line or level by the Engineer or the Engineer's representative shall not in any way relieve the contractor of his responsibility for the correctness thereof and the contractor shall carefully protect and preserve all bench-marks, sight-rails, pegs and other things and references used in setting out the works.

**15. Watching & Lighting**

The contractor shall in connection with the works provide and maintain at his own cost adequate lights, guards, fencing, warning signs and watch & ward staff when and where necessary or required by the Engineer or Engineer's representative or by duly constituted authority for the protection of the works or for the safety and convenience of the public or others.

**16. Care & Protection of Works**

From the commencement to the certified completion of the whole of works, the contractor shall take full responsibility for the care thereof and of all Temporary works and in case any damage, loss or injury shall happen to the works or to any part thereof or to any Temporary works from any cause whatsoever (save and except the excepted risks as defined in conditions of the contract) the contractor shall at his own cost repair and make good the same so that at completion, the works shall be in good order and condition and in conformity to every respect with the requirements of the contract and the Engineer's instructions. In the event of any such damage, loss or injury happens from any of the excepted risks, the contractor shall, if and to the extent required by the Engineer, repair and make good the same as aforesaid at the cost of the SMVDU. The contractor shall also be liable for any damage to the works occasioned by him including his subcontractors in the course of any operations carried out by him for the purpose of completing any outstanding work and complying with his obligations. The contractor shall indemnify the SMVDU from all risks on this account.

**17. Compliance with statutes, regulations, etc.**

The contractor shall conform to, in all respects, with the provisions of any such statute, ordinance or law as aforesaid and the regulation or Bye-Laws of any local or other duly constituted authority prevailing, which may be applicable to the works or to any Temporary works and with such rules and regulations of public bodies and companies as aforesaid and shall keep the SMVDU indemnified against all penalties and liability of every kind for breach of any such statute, ordinance or law, regulation or bye-law.

**18. Fossils, etc.**

All fossils, coins, articles of value or antiquity and structures and other remains or things of geological or archaeological interest discovered on the site of the works shall be deemed to be the absolute property of the SMVDU and the contractor shall take reasonable precautions to prevent his workmen or any other persons from removing or damaging any such article or thing and shall immediately upon discovery thereof and before removal acquaint the Engineer's representative of such discovery and carry out at the expense of the SMVDU and the instructions of Engineer's representative's to the disposal, or otherwise, of the same.

**19. Patents Rights & Royalties**

The contractor shall save harmless and indemnify the SMVDU from and against all claims and proceedings for or on account of infringement of any patent rights, design trade mark or name or other protected rights in respect of any constructional Plant, Machine work or material used for or in connection with the works or Temporary works or any of them and from against all claims, demand, proceedings, damages, costs, charges and expenses whatsoever in respect thereof or in relation thereto. The contractor shall pay all tonnage and other royalties, rent and other payments or compensation (if any) for getting stones, sand gravel, clay or other materials required for the works or Temporary works or any of them.

**20. Interference with Traffic and adjoining properties**

All operations necessary for the execution of the works and for the construction of any Temporary works shall so far as in compliance with the requirements of the contract permits, be carried on so as not to interfere unnecessarily or improperly, with the public convenience or the access to use and occupation of public or private roads and footpaths or to or of properties whether in the possession of the SMVDU or of any other person and the contractor shall save harmless and indemnify the SMVDU in respect of all claims, demands, proceedings, damages, costs, charges and expense whatsoever arising out of or in relation to any such matters in so far as the contractor is responsible therefor.

**21. Opportunities for other contractor/agencies**

The contractor shall, in accordance with the requirements of the Engineer, afford all reasonable opportunities for carrying out their work to any other contractor or agencies employed by the SMVDU and their workmen and to the workmen of the SMVDU and of any other duly constituted authority who may be employed in the execution on or near the site of any work not included in the contract or of any contract which the SMVDU may enter into in connection with or ancillary to the works. For any dispute in the matter, the same should be referred to SMVDU/Engineer and decision given by them will be binding.

**22. Supply of Plant, Materials & Labour**

**23. Site Clearance**

**23.1 Contractor to keep site clear**

During the progress of the works, the contractor shall keep the site reasonably free from all unnecessary obstruction and shall store or dispose of any constructional plant and surplus materials and clear away and remove from the site any wreckage, rubbish or temporary works which are no longer required.

**23.2 Clearance of Site on completion**

On the completion of the works, the contractor shall clear away and remove from the site all constructional plant, surplus materials, rubbish and temporary works of every kind and

leave the whole of the site and works clean and in a workmanlike condition to the full satisfaction of the Engineer not later than one month from the virtual completion of the works.

**24. Engagement of labour and labour Regulations**

- i) The contractor shall employ labour in sufficient numbers either directly or through sub-contractors to maintain the required rate of progress and of quality to ensure workmanship of the degree specified in the contract and to the satisfaction of the Engineer.
- ii) The contractor shall not employ, in connection with the works, any person who has not completed his fifteenth year of age.
- iii) The contractor shall pay to the labour, employed by him either directly or through sub-contractors, wages not less than fair wages as defined in the contractor's labour Regulations.
- iv) The contractor shall, in respect of labour employed by him either directly or through sub-contractors, comply with or cause to be completed with the contractor's labour Regulations in regard to all matters provided therein.
- v) The contractor shall comply with the provision of the latest payment of wages act, Minimum wages Act, SMVDU's Liability Act, workmen's compensation Act, Industrial Disputes Act, and the Maternity Benefit Act, the contract labour (Regulation and Abolition) Act, or any modifications thereof or any other law relating thereto and rules made there under from time to time.
- vi) The contractor shall indemnify SMVDU against any payments to be made under and for the observance of the Regulations aforesaid, without prejudice to his right to claim indemnity from his sub-contractors.
- vii) The decision of the Engineer in matters relating to the reports from the Inspecting Officers shall be final and binding and deductions for recovery of any liquidated damages in this respect may be made from any amount payable to the contractor.
- viii) **Observance by Sub-Contractors**  
The contractor shall be responsible for the observance by sub-contractors employed by him in the execution of this contract, of the provisions hereof and applicable laws, rules and regulations.

**25. Quality of Materials & Workmanship**

All materials and workmanship shall be the best of the respective kinds described in the contract and in accordance with the Engineer's instructions and shall be subjected from time to time to such tests as the Engineer may direct at the place of manufacture or fabrication or on the site or at all or any of such places. The contractor shall upon the instructions of the Engineer / Engineer's Representative furnish him with documentation to prove that the materials & goods comply with the requirements of contract and for requirement stated above. The Engineer may issue instructions in regard to removal of material from site or any work, if these are not in accordance with the contract. The contractor shall provide such assistance instruments, machinery, labour and materials as are normally required for examining, measuring and testing and work and the quality, weight or quantity of any materials before incorporation in the works for testing as may be selected and required by the Engineer/Engineer's representative.

**26. Examination of work before covering up.**

26.1 No work shall be covered up or put out of view without the approval of the Engineer or the Engineer's Representative and the contractor shall afford full opportunity for the Engineer or the Engineer's Representative to examine and measure any work which is about to be covered up or put out of view and to examine foundations before permanent work is placed thereon. The contractor shall give due notice to the Engineer's Representative whenever any such work or foundations is or are ready or about to be ready for examination and the Engineer's Representative shall without unreasonable delay, unless he considers it unnecessary and advises the contractor accordingly, attend for the purpose of examining and measuring such work or for examining such foundations.

**27. Commencement of Works**

The contractor shall commence the works on site within a period of 7 days after the receipt by him of an order in writing to this effect from the SMVDU or the Engineer or the date of handing over the site whichever is later and shall proceed with the same with due expedition and without delay except as may be expressly sanctioned or ordered by the Engineer or be wholly beyond the contractor's control.

**28. Possession of Site for Construction**

**28.1 Purpose**

The SMVDU will with the Engineer's written order to commence the works, give to the contractor possession of so much of the site as may be required to enable the contractor to commence and proceed with the construction programme and otherwise in accordance with such reasonable proposals of the contractor as he shall by notice in writing to the Engineer make and will from time to time as the work proceeds give to the contractor possession of such further portions of the site as may be required to enable the contractor to proceed with the construction of the works with due dispatch in accordance with the said programme or proposals (as the case may be).

**28.2 Power, Water & Other Facilities.**

The contractor shall be responsible for providing within the scope of work all facilities necessary for the performance of the work including (but not limited to) water, electrical power, electrical power through generator, transportation, labour tools, construction and testing equipment and machinery, borrow areas, access roads and right (s) of way to or about the job site(s) and or borrow area.

**29. Final Certificates & Termination of responsibilities**

**29.1 Final Completion Certificate**

On successful completion of entire works covered by the contract to the full satisfaction of SMVDU/Engineer, the contractor shall ensure that the following works have been completed to the satisfaction of Engineer: (a) clear the site of all scaffolding, wiring, pipes, surplus materials, contractor's labour, equipment and machinery (b) demolish, dismantle and remove all contractor's site offices and quarters and other temporary works, structures and constructions and other items and things whatsoever brought upon or erected at the site or any land allotted to contractor by the owner and not incorporated in the permanent works (c) remove all rubbish, debris etc. from the site and the land allotted to contractor and shall clear, level and dress, compact the site as required and said land to the satisfaction of the Engineer (d) shall put the owner in undisputed custody and possession of the site and all land allotted by the owner to the contractor, (e) all defects/imperfections

have been attended & rectified to full satisfaction of the Engineer during the Defect Liability Period.

Unless the contractor shall have fulfilled the provisions of the clause, the works shall not be deemed to have been completed.

Upon the satisfactory fulfillment by contractor as stated above, the contractor shall be entitled to apply to the Engineer for a final completion certificate in respect of the entire work.

This issuance of a completion certificate shall be without prejudice to the SMVDU's rights and contractor's liabilities under the contract, including the contractor's liability for the Defect Liability Period nor shall the issuance of a completion certificate in respect of the works or work at any site be construed as a waiver of any right or claim of the SMVDU against the contractor in respect of work or the works at the site and in respect of which the final completion certificate has been issued.

### **29.2 Defect Liability/Maintenance Completion Certificate**

The contract shall not be considered as completed until a Maintenance Completion Certificate shall have been signed by the Engineer and delivered to the SMVDU with a copy to the contractor stating that the works have been completed and maintained during the Defect Liability Period by the contractor to his full satisfaction. The Maintenance Completion Certificate shall be given by the Engineer within twenty eight days after the expiration of the Maintenance/Defect-Liability-Period.

### **29.3 Cessation of SMVDU's Liability**

The SMVDU shall not be liable to the contractor for any matter or thing arising out of or in connection with the contract or the execution of the works unless the contractor shall have made a claim in writing in respect thereof before the issuance of the Defect Liability/Maintenance Completion Certificate under this clause.

## **30. Defect-Liability/Maintenance Period**

30.1. The contractor shall maintain the whole of permanent works in a thoroughly sound, substantial efficient and perfect condition during the Defects-Liability Period of 365 days, after the date of completion of the whole or part of works, as certified by the Engineer, remedying at his own cost and to the satisfaction of the Engineer, any defects (excepting fair wear & tear, cleaning, normal day to day maintenance during the use of the building after being occupied) which may become apparent, prior to or during this Defects-Liability period, arising out of defective materials and/or workmanship or default, neglect or omission of the contractor notwithstanding, that the SMVDU has used portions of the works before the whole of the works were completed, during the Defect Liability Period. All tools plant, machinery, materials, superintendence, labour and other devices of all kinds necessary for such maintenance of the works during Defect Liability Period are to be supplied by and at the expense of the contractor.

The whole cost of rectification of defects, replacement of defective work or part thereof to the satisfaction of the Engineer, shall be at the expense of the contractor.

### **30.2 Remedy on contractor's Failure to remove defective work**

If the contractor shall fail to carry out any such work as aforesaid required by the Engineer, the SMVDU on the advise of the Engineer shall be entitled to carryout such work by his own workmen or by other contractors and if such work which in the opinion of the Engineer, the Contractor was liable to do at his own expense under the contract, then all expenses consequent thereon or incidental thereto shall be recoverable from the contractor by the SMVDU and shall be deducted by the SMVDU from any monies due or that becomes due to the contractor.

### **31. Variations**

31.1 If the SMVDU/Engineer may make any variation in quality or quantity of the works or any part thereof that may in their opinion be necessary, then the Engineer with the consent of the SMVDU shall have power to order the contractor to carry out the same and in any of the following:

- (a) Increase or decrease the quantity of any work included in the contract
- (b) Omit any such work
- (c) Change the character or quality or kind of any such work
- (d) Change the levels lines position and dimensions of any part of the works and
- (e) Execute additional work of any kind necessary for the completion of the works.

And no such variation shall in any way vitiate or invalidate the contract but the value (if any) of all such approved variations shall be taken into account in ascertaining the amount of the contract price.

### **32 Power of Engineer to fix Rates**

Provided that if the nature or amount of any omission or addition relative to the nature or amount of the whole of the works or to any part thereof shall be such that, in the opinion of the Engineer, the rate or price contained in the contract for any item of the works is, by reason of such omission or addition/substitution rendered unreasonable or inapplicable, then a suitable rate or price shall be agreed upon between the Engineer and the contractor. In the event of disagreement the Engineer shall fix such other rate or price as shall in his opinion be reasonable and proper having regard to the circumstances and with approval of the SMVDU.

### **33. Variations Exceeding 25 percent**

If the net effect of all variations (other than those arising by reason of any clause relating to variations in price of materials and/or labour) shall be found, on completion of the whole of the works, to result in a reduction or an addition greater than 25 percent of the sum named in the Tender the amount of the contract price shall be amended by such sums as shall be agreed upon between the Engineer and the contractor. In the event of disagreement, the Engineer shall fix such sum, as shall, in his opinion, be reasonable and proper regard being had to all material and relevant factors including the contractor's own cost and overheads.

### **34 Contract Price not subject to Variation**

Save as specifically provided elsewhere in the conditions of contract, the contract rates shall not be adjusted in respect of any increase or decrease of cost to the contractor in carrying out the works by reason of alteration in the rates of wages and allowances payable to labour or change in the conditions of employment thereof or change in the cost of

materials (whether for the permanent or temporary works) consumable stores fuel and power or variations in the rates of freight and insurance or in the incidence of or rates of landing charges or the operation of any law or statute or variation in the cost of any other matter or thing of whatsoever nature subsequent to the date of Tender.

So, it must be clearly understood by the contractor that no claim on account of enhanced rates on those items of work already accepted due to fluctuations of rates of materials will be entertained during the currency of the contract for the work, as per bill of quantities attached to the agreement and the additional work, if any, under relevant clause of the contract.

**35. Plants etc. not to be removed.**

No constructional Plant Temporary works or materials or any part thereof shall be removed from the site without the written consent of the Engineer which consent shall not be unreasonably withheld where the same is no longer immediately required for the purpose of completion of the works. The SMVDU will permit the contractor the exclusive use of all such constructional plant, Temporary works and materials in and for the completion of the works until the happening of any event which gives right to the SMVDU to exclude the contractor from the site and proceed with the completion of the works.

**36 Quantities**

The quantities set out in the Bill of Quantities are the estimated quantities of the work and they are not to be taken as the actual and correct quantities of the works to be executed by the contractor in fulfillment of his obligations under the contract & the quantities may vary conforming to actual site conditions & requirements and such variation shall not in any way vitiate or invalidate the contract, nor shall the contractor be entitled to any claim for increase or decrease of quantities of any item/items of work.

**37 Works to be Measured**

37.1 The SMVDU shall except as otherwise stated ascertain and determine by measurement the quantity and value of work done in accordance with the contract. He shall, when he requires any part or parts of the works to be measured give notice to the contractor's authorized agent or representative who shall forthwith attend or send a qualified agent to assist the Engineer or the Engineer's Representative in checking such measurements & other substantiations of the Bill submitted by the contractor and shall furnish all particulars required by either of them. Should the contractor not attend or neglect or omit to send such agent then the measurement made by the Engineer or approved by him shall be taken to be the correct measurement of the work and shall be conclusive and binding on the contractor.

37.2 The work shall be measured notwithstanding any general or local custom except where otherwise specifically described or prescribed in the contract.

**38 Urgent Repairs/Works**

If by reason of any accident or failure or other event occurring to in or in connection with the works, or any part thereof, either during the execution of the works or during the period of defect liability/Maintenance, any remedial or other work or repair shall, in the opinion of the Engineer or Engineer's Representative be urgently necessary for security and safety of life or for the works or adjoining property, and the contractor is unable or unwilling to once to do such work or repair, the SMVDU may employ his own or other workman do such work or repair, as the Engineer or the Engineer's Representative may

consider necessary. If the work or repair so done by the SMVDU is work which, in the opinion of the Engineer, the contractor was liable to do at his own expense under the contract, all costs and charges properly incurred by the SMVDU in so doing shall on demand be paid by the contractor to the SMVDU or may be deducted by the SMVDU from any monies due or which may become due with the contractor. Provided always that the Engineer or the Engineer's Representative (as the case may be) shall, as soon as after the occurrence of any such emergency, as may be reasonably practicable notify, the contractor thereof in writing.

**39 Payment in Event of Frustration**

In the event of the contract being frustrated whether by war or otherwise, howsoever, the sum payable by the SMVDU to the contractor in respect of the works executed shall be the same as that which would have been payable hereof if the contract had been terminated under the provisions of conditions of the contract.

**40 Serving of Notices**

**40.1 On Contractor:**

Any notice to be given to the Contractor, under the terms of the contract shall be served by sending the same by registered post to or leaving the same at the contractor's Principal place of business (or in the event of the contractor being a company to or at its Registered Office).

**40.2 On SMVDU:**

Any notice to be given to the SMVDU, under the terms of the contract, shall be served by sending the same by Registered post to or leaving the same at the SMVDU's last known address (or in the event of the SMVDU being a company to or at its Registered Office).

**41 Excise & Sales Taxes, Works contract Tax for works.**

41.1 The contractor shall pay and be responsible for payment of all taxes, duties, levies, fees or charges in respect of the works including but not limited to sales taxes, Tax on works contract, excise duties and octroi, payable in respect of materials, equipments, plant and other things required for the contract. All of the aforesaid taxes, duties, levies, fees and charges shall be to the contractor's account and SMVDU shall not be required to pay any additional or extra amount on this account. Variation of the taxes, duties, levies, fees etc., if any, till completion of the work, shall be deemed to be included in the accepted rates and no extra claim on this account will in any case be entertained.

**41.2 Taxes on Profit**

The contractor will be required to pay all taxes levied by the central and/or state Governments on such part of his profit in respect of the contract as is chargeable therewith under the laws for the time being in force.

**42 Excavated materials property of SMVDU**

All materials and things of any kind obtained from excavations or found on or under the site or under any additional site, which the contractor may be allowed to occupy, shall remain the property of the SMVDU and shall not be used in the works or sold or otherwise

disposed of without the written authority of the SMVDU unless otherwise expressly provided in the specification. Now excavations are to be made upon the site or additional site beyond those shown on the drawings without written authority of the Engineer or the Engineer's Representative.

**43 Contract supersedes previous Documents**

The contractor shall have no right to any increase in the rates in the Bill of Quantities nor any other right whatsoever by reason of any representative's explanation or statement given or to be given or by a reason of any information, promise, or guarantee given or alleged to have been given to him by any person (whether in the Employ of the SMVDU or not) before the date of the contract it being understood that the contract embodies the whole arrangements between the parties with reference to the contract hereby constituted and all previous correspondence, negotiations, representatives, explanations, statements, promises or guarantees whether oral or written shall be excluded.

**44 Dimensions and Levels**

All dimensions and levels shown on the drawings shall be verified by the contractor on the site and he will be held responsible for the accuracy and maintenance of all dimensions and levels.

Figured dimensions are in all cases to be accepted and no dimension shall be scaled. Large-scale details shall take precedence over small-scale drawings. In case of discrepancy the contractor shall ask for clarification from the Engineer's Representative before proceeding with the work.

**45 Assistance for Engineer/Engineer's Representative**

The contractor shall provide for the Engineer/Engineer's Representative at all times during the contract including maintenance, a competent chainman and/or all such other men as he may require to assist him in carrying out or checking any measurements, levels, setting out or measuring up of work. The contractor is also to provide ladders, gangways etc. and the necessary attendance to move and adopt as directed for inspection or measurement of the works by the Engineer/SMVDU and their representatives.

**46 Construction Records**

The contractor shall keep and provide to the Engineer's Representative full and accurate Records of the dimensions and positions of all new work and any other information necessary for the Engineer's Representative to be able to prepare complete drawings, recording details of the works as constructed.

**47 SMVDU supply of materials.**

The SMVDU, entirely at their own discretion may decide to supply some materials. In such a case, the rates of items of work affected due to such supply shall be suitable varied as per analysis of rates as directed by Engineer. No claim on this aspect from the contractor shall be entertained.

- 48 Lighting for works**  
The contractor shall at all times provide adequate and approved lighting as required for the proper execution and supervision and inspection of the works.
- 49 Site Instruction Book**
