NOTICE

Subject: - Advisory for restricted movement of Students in Hostels in view of Corona Virus (COVID-19) outbreak

Reference is drawn to the email dated 11.03.2020, whereby in view of the spread of COVID-19 virus and the instructions received from the Govt., class work in the University was suspended till 31.03.2020 and many students left the campus for their home town; however, a sizeable number stayed back in the Hostels.

It has been observed that these students are frequently commuting i.e. they are leaving the Hostels for short duration and coming back to the Hostel after spending hours in general public. This is a dangerous health hazard thereby risking not only the student concerned but also all others who come in contact with these particular students.

All students (who are staying back in the hostel) are, therefore, strictly advised to restrict their movement to the University Campus only. No student shall be allowed to leave their hostel / campus and in case a student violate the above rule he / she shall not be allowed to return to the campus till the above restrictions are lifted. However, in case of emergency permission may be taken from the undersigned.

It is mandatory to practice social distancing and maintain proper hygiene during the times this pandemic.
