One-Week Training Program
On the Topic

**‘Decision Making: Strategies
and Techniques’**

(Exclusively For Officers of Indian Forests Service)

at

SCHOOL OF BUSINESS

SHRI MATA VAISHNO DEVI UNIVERSITY

DATE : 7th – 11th October, 2024

One Week Training Program on “Decision Making: Strategies and Techniques” for IFS officers is going to be organized at School of Business, Shri Mata Vaishno Devi University during 7th-11th October, 2024 with financial support of Ministry of Environment, Forests and Climate Change, Government of India. The aim of this training is to make officers learn how to set the context around which decision must be taken, how to evaluate all factors involved in developing possibilities, how to assess each possibility against set criteria, to identify the best option and then how to develop that into a successful decision.

Within the robust decision making framework, the worthy officers may also learn how to ‘sell’ the decision and communicate it effectively, and how to monitor the decision taken to ensure that it remains on track and successful. The numerous activities and exercises throughout the training are scheduled where participants get to practice the different tools and techniques learned, The participating officers will also apply the learning and their problem solving skills on interesting real time case studies. This One-Week Training program is planned exclusively for those IFS officers whose names are recommended by Sponsoring Ministry of GoI for this event.
